COLLECTION

# D'Vinci

D'vinci Wheels is one of the leaders in wheel manufacturing, keeping a promise to bring outstanding quality and innovative design to car enthusiasts around the world.

Various unique designs from D'vinci have allowed us to become a trendsetter in the wheel industry, leaving other brands to follow.

In addition to our Metro and Classic Edition wheel collections, D'vinci Wheels is proud to announce the new Euro Edition.

New styling and development in the Euro Edition has brought forth the Agio, Bravo, Cinque, Duro, Gira and Pazzo to our 2010 wheel collection.

Continuous growth and development in wheel construction and design has distinguished D'vinci Wheels from the competition in terms of quality products and design.

It is our goal at D'vinci Wheels to provide our customers with the most innovative styling and quality in wheels for the demanding auto enthusiasts.

D'vinci has also introduced a new style of wheel to our collection. In our new style, you will find "Color Stitching" designs. These designs are offered in a series of colors such as blue, red, yellow and silver. All wheels will also have their inserts colored as the color stitching on the edge of the lip.
